Total Grant received	£17790
Total Spent	£19300
School contribution	£1510

Impact of provision 2017 -2018

We will measure the impact through a variety of means including:

- Assessment information
- Pupil participation rates
- Pupil feedback
- Parent feedback
- Governor visits and faculty meetings
- Monitoring by the faculty for PE

Review date:

To be reviewed mid-year in April 2017 and end of Year July 2018

Outstanding actions for the summer term:

- Pupil voice on PE provision, outdoor learning and experiences in school
- Developing the role of the sports leader
- Final analysis of current participation rates
- Analysis of outcomes for swimming in Year 3, 5 and 6
- Purchasing equipment / planning long term development of the outdoor space
- Further extending in sports provision in school for pupils through community groups.
- Review the health and wellbeing aspects of sport provision already provided in school and how this can become part of the sustainability plan.

Actions to be considered for 2018 -2109

- Employ a sports apprentice for 2018-19. This would support the school in providing extra clubs, supervision for events, administration and supporting teachers with implementation of gymnastics and games. Further consider how this would also ensure the sustainability of PE provision in the future.
- Improve the provision of outdoor equipment to support pupils' gross motor skills from an early age.
- Build on the inter-house competition implemented this year and create a house cup for each term event.
- Pupil and parent voice to be conducted in the summer term to find out the views of all stakeholders in preparation for 218 -19.
- Fully implement the new reporting format for Sports Premium Grant from September.
